This is the 4th year for this event, but the organization has been around since 2007. We have held an annual health symposium at Century Gardens, and an annual health conference at Ryerson University for the past four years. The purpose of the event is to empower men to better understand and be responsible for their health and well-being. “Walk The Path” also encourages the use of a fine Brampton community resource, the Etobicoke Creek Trail, to improve health and fitness levels. Finally, it is a fun way to enhance social interaction, raise awareness, and create a funding mechanism to further the work of The Walnut Foundation.

Tax receipts will be issued for amounts of \$20.00 & over (with complete address).
