

## Dr. Joyce C. Okorafor

Dr. Joyce C. Okorafor, MD, FRCPC, is a psychiatrist with advanced training in geriatric psychiatry. She supports older adults and families navigating complex medical and cognitive illness, including delirium, dementia, and behavioural and psychological symptoms of dementia.

Her work centers on pragmatic care pathways that help patients and caregivers move safely across hospital, home, and long-term care settings, with an emphasis on advocacy, caregiver resilience, and culturally responsive approaches that advance health equity for Black communities.
